Mulliner Table

Dimensions
Chairs: 31½ h, 16sh, 21w
Table: 28h, 56w

Available Finish
Hardwood with aged walnut finish.

Based on a card table circa 1745, but a popular shape from earlier in the 18th century. This walnut table and set of eight chairs features fine decorative treatment in the carving detail. The table legs are especially fine in their sweep, with the chair seats dovetailing to form an octogan base around the figurative Walnut Tree.

When the chairs are pushed in the backs create the appearance of a gallery around the top of the table.

The original was once the property of H.H. Mulliner, esq.
